A PREMIUM HIGHWAY RETAIL DESTINATION

HIGHWAY RETAILING: THE UNTAPPED POTENTIAL IN INDIA

Improved Accessibility

India is making headway in modernising its national highway network and has enhanced connectivity all around the nation.

Highway Pit Stops

While travelling by road, people seek pit stops for relaxation and refreshments and highways have always offered unorganised retail possibilities, but over time, more organised formats have become increasingly prevalent.

Highway F&B Evolution

At first, local food outlets came up along highways. The prime hubs at the time being Haveli and Shiva restaurants along NH-24, and Rao Dhaba, Haldiram's, and Nirula's along NH-48.

Growing Organised Retail

These unorganised developments originally served as rest areas and owing to their popularity, now many international businesses have also opened along busy motorways, including McDonald's, Starbucks, KFC, Subway, etc.

Diversifying Highway Retail

Over the years, highway retailing has grown and is now no longer a F&B-led story and a more varied category mix is currently emerging. Brands of clothing, sportswear, and footwear have been actively growing their presence through highway retailing.

KEY CHALLENGES FOR RETAILERS

Poorly managed facilities

Absence of national developers and quality developments

Long gestation period

KEY OPPORTUNITIES FOR RETAILERS

EBD 83 is strategically positioned to tap into this major opportunity opening up in highway retailing and is set to be a premium retailing destination owing to its proximity to secondary support catchment of New Gurugram.

Global Players in the Mix

The beverage industry is evolving and people are taking regular breaks on long trips, hence many of international cafes and more and more retail chains are also expected to set up their footprint along highways.

Enhanced Brand Visibility

As people look to explore offbeat destinations, and many leisure destinations being easily accessible, retailers are able to tap into a wider consumer base by adopting a highway store location strategy.

Travel Made Easy

Social media & travel apps are also playing a part to increase travel via roads. Nuclear families including millennials and GenZ want to move away from the hustle and bustle of the daily routine, while travel apps make it all the more easy to book hotels and staycations.

India's Roadway Revolution

Sport-utility vehicles (SUVs) made up more than half of India's record four million passenger vehicle sales in 2022-23, indicating that people prefer travelling by road.

NH-48 - AN EMERGING HIGHWAY RETAILING HUB

Highways in India are divided into 3 categories- A, B and C on the basis of car passenger traffic with category-A highways dominating the scope of modern highway retailing. NH-48 is one of the most promising highways in category-A.⁵

India's Pivotal Highway

NH-48 is a 1,428-km, 4-lane highway and the busiest in the subcontinent that connects the national capital-Delhi, to various tourist destinations of Rajasthan and Gujarat.

A Busy Thoroughfare

80,000 passenger car units travel through Kherki-Daula toll plaza on NH-48 every day as per 2021 data.*

Neighbourhood Dynamics

Already more than 1 lakh dwelling units and nearly 5 lakh residents are living in close proximity[#], and the area is exhibiting growth with millennials buying more homes especially since 2020. They are also travelling on short notice because of easy access through improved road infrastructure and accuracy of navigation apps.

- Development allowance for Basement + Ground + 4 Floors.

Artistic Impression

EBD 83: A PERFECT BLEND OF AESTHETICS AND NECESSITIES

Convenient Parking Structure

Well-thought infrastructure with ample parking space along with smooth vehicular traffic management.

Water Features

Water features within the development that augment the shoppers' experience.

Al Fresco Seating Spaces

Al fresco seating here makes this a desirable location for cafes and fine-dining restaurants, especially so because of the elite residents of the neighbourhood.

Ingenious Planning

Adequate power backup for common areas and 24X7 security so that work, business & life goes on undisturbed.

EV Charging Stations

Owing to highway traffic pit stops, EV charging stations also caters to the refuelling requirement of the travellers while they enjoy their detours.

HIGHWAY RETAILING WITH A SUPPORT CATCHMENT LIKE NO OTHER

Sector-83 is a part of new Gurugram which is a bustling neighbourhood with a well-developed social infrastructure and flourishing residential projects, schools, and business centres nearby ensuring businesses at EBD 83 get the attention they deserve. Also in 2023, the first half of the year saw many residential project launches with 62%* of them being in New Gurugram.
